NOTES

DESCRIPTION

Both the main four-bedroomed house (125m²) and the three-bedroom house (80m²) benefit from recent renovation. Fully double-glazed and insulated, the main house is heated by an efficient wood-pellet boiler, while the smaller house has a brand-new heat pump (Aug 2023). Hot water by immersion. Both are on mains drains.

The smaller property has the option of using well water or mains water, while the bigger house only uses well water for the moment, although this could be connected.

Both properties have separate gated access with off-road parking.
