

Opportunity to own a large chalet with an existing long term rental in La Tania, Courchevel

INFORMATION

Town:	Courchevel
Department:	Savoie
Bed:	14
Bath:	13
Floor:	415 m2
Plot Size:	893 m2

IN BRIEF

This 4 floor independent chalet of about 410m2 has 14 bedrooms and 13 bathrooms/shower rooms along with sitting, dining room and kitchen. On the ground floor there is also an entrance hall, boot room, utility area and laundry plus storage, office and staff rooms. Constructed in 1996 this chalet was one of the first in the chalet quater of La Tania, Courchevel and has very easy access to skiing and the telecabine, as well as the shops, bars, restaurants of this lovely resort frequented by families and friend groups alike. There are many options for this chalet. At present it can be divided into 2 equal parts, just sharing the kitchen and dining room. It can be used as one large chalet for personal use, or run as a business. Equally, walls can be removed to increase the size and reduce the number of bedrooms to create a fantastic space...

NB. Quoted prices relate to euro transactions. Fluctuations in exchange rates are not the responsibility of the agency or those representing it. The agency and its representatives are not authorised to make or give guarantees relating to the property. These particulars do not form part of any contract but are to be taken as a general representation of the property. Any areas, measurements or distances are approximate. Text, photographs and plans, where applicable, are for guidance only. Leggett and its representatives have not tested services, equipment or facilities and cannot guarantee the same.

Particulars for off-plan purchases are intended as a guide only. Final finishes to the property may vary. Purchasers are advised to engage a solicitor to check the plans and specifications as laid out in their purchase contract with the developer.

NOTES

DESCRIPTION

This independent chalet is on 4 levels and has a total floor space of approximately 415m² (including some areas of the top floor which are lower than 1.8m height). There are 14 bedrooms in total and these are of various types. Most of the bedrooms are double or twin rooms with en-suite facilities. There are also four small bunk bedrooms which are designed for families with children or for single adult occupancy. In total the chalet can currently accommodate up to 28 people.

The original architect designed this chalet for sale for commercial rental and with its unique capacity, it has always delivered a very high rate of occupation when in rental. Equally, a new owner could remove some of the interior walls to reduce the number of bedrooms and increase their size. In this way, the chalet would become a beautiful family home.

The chalet divides into two equal halves, with a separate staircase for each side. On the main floor, there are two living rooms, each with a fireplace. The living rooms have a sliding wall to separate them if desired. Both halves of the chalet share the same dining room and kitchen.

On the basement level, there are large storage areas and four additional multi-purpose rooms, along with a shower room and WC, boot room with electric boot warmers and secondary food preparation area/laundry.

Layout of the Chalet:-

Ground Level – Basement

Entrance lobby on each side of the chalet

Boot room with ski racks, benches...
